COMPANY PROFILE

INTEGRATED
TECHNOLOGY
SOLUTIONS

introduction

Established in 2003, **Bawabat** offers Sales, Project Management, System Design, Software Development / Configuration, Equipment Sourcing, Prefabricate and System installation services in the Middle Eastern region. The company offers end-to-end technology solutions / support 24 hours a day, 7 days a week with a supporting team of highly qualified engineers specialized in a number of technology areas - Information Technology, Telecommunications, Hospitality systems, Security systems and other Low Voltage services.

Bawabat is part of Nasser Badri group of companies and the group is already engaged in various business activities - Construction, Consulting, Interior Design, Office Furniture, Real Estate and General Trading.

We recognize the importance of the services we offer and as a result we have strategic relationships with key vendors to provide the best of the solutions for our clients. With the back up of qualified professionals **Bawabat** operates from Dubai, United Arab Emirates and it maintains the best quality of work, experience, professionalism and teamwork of its customers and staff. This is maintained by the constant adherence to its corporate values which are applied equally to its dealings with customers and its own personnel.

Our valued clients are diversified covering different industry sectors. We work closely with our clients to build a long term relationship by exceeding expectations and being the trusted partner that provides cost-effective solutions, services and products.

Vision : It is our vision to bring the company into one of the best turnkey solutions providers in the region.

Quality : A focus on quality applies to all aspects of **Bawabat** business - its employees, facilities, work and, above all, the ability to provide a seamless service on time and within agreed budgets.

Value : Through a professional management approach and experience - **Bawabat** is committed to providing cost-effective services and products to its customers Our focus is to enable companies to achieve significant return on their technology investments.

We hope that you will provide us an opportunity soon to know us better and get to appreciate who we are.
